Chairman Doug Little
Arizona Corporation Commission
Commissioners Wing
1200 W. Washington - 2nd Floor
Phoenix, Arizona 85007

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: CONSOLIDATE!

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. VOTE to CONSOLIDATE!

Sincerely,

Jodi VanCampen

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: CONSOLIDATE!

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. VOTE to CONSOLIDATE!

Sincerely,

E.S. Newman

Verrado Resident and EPCOR Customer

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: CONSOLIDATE!

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

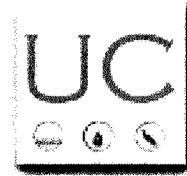

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. VOTE to CONSOLIDATE!

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

To Whom it May Concern;

I am a resident of Verrado and an EPCOR wastewater customer, and I am asking the Arizona Corporation Commission to decide **in favor of full consolidation** of EPCOR's wastewater districts into a single rate structure.

We live in the Agua Fria district, and our disparate communities have been consolidated for fifteen years. The Arizona Constitution specifies that people and places should pay the same rate for "like and contemporaneous service". That we receive such service cannot be disputed. It's time to bring all EPCOR-served communities under the same pricing.

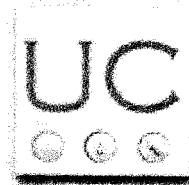

Our community, and others in Agua Fria, have been subjected to severe fluctuations in rates over the past six years because the Commission had yet to clearly state a position on consolidation, allowing communities to drive the conversation, solely to preserve their own rates. In the Water Workshop this spring, the Commission finally made a statement in support of Consolidation regarding smaller companies and customer bases. It is my strong hope that you will stay the course on this issue and consolidate EPCOR districts once and for all.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for that service.

Thank you for your attention to this matter.

Sincerely,

Verrado Resident and EPCOR Customer

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: **CONSOLIDATE!**

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. **VOTE to CONSOLIDATE!**

Sincerely,

Margie Newmar
Verrado Resident and EPCOR Customer

Phoenix, Arizona 85007

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: CONSOLIDATE!

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. VOTE to CONSOLIDATE!

Sincerely,

Verrado Resident and EPCOR Customer

SUBJECT: EPCOR Wastewater Case WS 01303A-16-0145

Chairman Little,

There is only ONE word you need to know for EPCOR's rate case: CONSOLIDATE!

Consolidation is the only constitutionally acceptable choice. The Arizona Constitution says, "no discrimination in charges...shall be made between persons or places for rendering a like and contemporaneous service..." EPCOR's current wastewater district configuration gives the appearance of:

- Age-based discrimination. Sun City and Sun City West, both age-restricted communities, have the lowest rates among the four districts served by EPCOR.
- Discrimination between places. Sun City West uses the same wastewater treatment plant that services Corte Bella yet pays half as much for wastewater as Corte Bella.

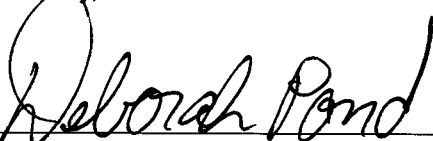

Consolidation is a matter of policy, and good policy must:

- Support the core principles of ratemaking.
- Promote future growth and protect ratepayers from rate fluctuations.
- Be consistent with previous consolidation decisions by the Commission.

Opponents do not have a valid policy basis for their objections to this rate case. Their disagreement, based solely on rate increases, does not constitute a basis for not consolidating.

We all receive the same service from the same company under very similar conditions. We should all pay the same price for the same service. VOTE to CONSOLIDATE!

Sincerely,

Merrado Resident and EPCOR Customer
